ABOUT

Front-end oriented Developer who enjoys the challenges and triumphs of software development. I want to utilize my knowledge and previous experiences to continue my growth by building applications that not only reach users, and inspire them to grow, but also continue the growth and impact that technology has in our lives and future.

PROJECTS

HOMESECURE
link: homesecure.herokuapp.com
code: github.com/rpcvjet/HomeSecure

- Two tier biometric home security application. Utilizes facial recognition and spoken password to grant entry.

GOALTASTIC
code: github.com/devonhackley/goaltastic

- REST API, that allows users to track their progress on specific goals that they wish to accomplish.

BARKRAWL
link: barkrawl.herokuapp.com/
code: github.com/aer03280/Barkrawl

- Single Page web app, that utilizes the Yelp API and Google maps API to enable users to search nearby dog friendly bars in their area. Data is persisted through the use of a SQL database.
